

**Cook Shire Council Road Register**
*Queensland Local Government Act 2009 (s74) and Regulation 2012 (s57)*

The Queensland Local Government Act and Regulation require Cook Shire Council to prepare and keep up-to-date a Register of every road within the Local Government Area. The Register must show the category of every road, the level of every road that has a fixed level, the length and width of every road and whether the road is formed, gravelled pavement or sealed pavement. The following data provides the required details with roads divided into segments that are used by Council to manage road maintenance and repair.

| Road Name                      | Road Gazetted | Gazetted Name       | Alternative Names    | Road Mapped | Road Hierarchy | Segment Chain Start (Metres) | Segment Chain End (Metres) | Road / Segment Length in KM | Construction | Formation Width (Metres) | Formation Avg Depth (Metres) | Pavement Width (Metres) | Pavement Depth (Metres) | Seal Width (Metres) | Rural / Urban | CSC Managed |
|--------------------------------|---------------|---------------------|----------------------|-------------|----------------|------------------------------|----------------------------|-----------------------------|--------------|--------------------------|------------------------------|-------------------------|-------------------------|---------------------|---------------|-------------|
