## **HELP STOP THE SPREAD OF THE INVASIVE INDIAN MYNA BIRD**

**Indian mynas can displace native birds, kill baby birds, destroy fruit crops and spread mites.**

**Cook Shire Council and South Cape York Catchments are calling for locals to be involved in a humane trapping program for these pests.**

**To report Indian Myna bird sightings or join the trapping program, contact Cook Shire Council on the below details, or South Cape York Catchments on 4069 5443.**
