

ROADWORKS

STARTING NOVEMBER 7

Savage Street, from Harrigan Street to Mason Street

Council is upgrading Savage Street, between the Harrigan Street and Mason Street intersections.

The work is expected to start on November 7 and continue for approximately four weeks. Road users are advised to expect changed traffic conditions, including part or full road closures, while the work is ongoing. Guided access will be provided to properties in the works area during road closures. There will also be minor disruptions to town water in the area, starting this week. Residents will be notified prior to planned water disruptions.

Please obey signage and drive slowly past the works site. Thank you for your patience while we improve your infrastructure.
