These plans must provide evidence that the sight distance requirements as per AS2890.1:2004 will be met.

Fire Management

7. The development must be maintained at all times to a standard so as not to create a fire hazard.
8. Any new building (other than a class 10a) erected on any of the proposed lots shall:
 - (i) Achieve setbacks from fire hazardous vegetation of 1.5 times the predominant mature canopy tree height or ten (10) metres, whichever is greater;
 - (ii) Be provided with a source of water for fire-fighting purposes of not less than 10,000 litres. This must be satisfied by the provision of an accessible dam, swimming pool, or water tank. In the case of a tank supply, delivery of the water should be provided through a 50mm male Camlock fitting. The outlet from the tank water supply or the dam/pool shall be located within an accessible position within forty (40) metres from the habitable buildings.

Building Envelope

9. All buildings or structures must be located within the identified building envelope for proposed Lot 1. Should the owner wish to locate any building or structure outside the identified building envelope, approval must be obtained from the Director Planning and Environment Services at the time of Building application.

Vegetation Clearing

10. Vegetation clearing must be limited to that required for firebreaks, dwelling houses, and associated infrastructure. Any regulated vegetation not required for building works or bushfire management purposes must be retained.

Stormwater

11. Stormwater drainage must be directed to a legal point of discharge.
12. Site works must not adversely affect flooding or drainage characteristics of properties that are upstream, downstream, or adjacent to the development site.

Sediment Control

13. The developer must ensure that effective measures are put in place to ensure construction activity does not cause erosion.
14. The developer must ensure that no soil or silt runoff occurs from the site during the construction and operational phase of the development.

Compliance

15. All conditions of this development permit must be complied with prior to Council endorsement of the Plan of Survey.

Outstanding Charges

16. All rates, service charges, interest and other charges levied on the land must be paid prior to Council endorsement of the Plan of Survey.

B. Assessment Manager (Council) Advice

1. The reconfiguring a lot approval authorised under this Development Permit must be completed and the Plan of Survey submitted to Council for endorsement within **four (4) years** from the commencement of this approval or the approval will lapse.
2. A development permit is required for carrying out Building Works, and a Plumbing and Drainage Approval/compliance permit is required for Plumbing and Drainage Works prior to construction of any buildings associated with this development.
3. The applicant/owner is to ensure compliance with the requirements of the *Aboriginal Cultural Heritage Act* and in particular 'the duty of care' that it imposes on all landowners.
